**INFORMATION DISCLOSURE STATEMENT**

Director of the United States Patent  
and Trademark Office  
P.O. Box 1450  
Alexandria, Virginia 22313-1450

Dear Sir:

Under the provisions of 37 C.F.R. §§ 1.56, 1.97 and 1.98, Applicant submits herewith information that the Office may wish to consider in examination of the subject application. Materials submitted for consideration are listed on the attached form PTO-1449.

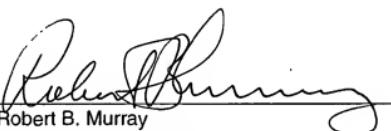

The relevance of any foreign-language reference for which an English-language translation is not provided is as follows.

1. The invention in DE 198 19 889 A1 concerns a method and a device for the isolation of nucleic acids from a probe, which in particular is an organic or inorganic material.
2. WO 99/57314 relates to a method and a device for the isolation and purification of nucleic acids. According to the invention, after decomposition of a sample the nucleic acids present in said sample are isolated and purified.

Please charge any fee deficiency or credit any overpayment to Deposit Account
